CHICAGO QUALITY ASSURANCE ASSOCIATION

CQAA needed a new website to help bring them up to speed with their organization's mission. With a few customizations to the Wild Apricot platform we were able to design and build a visually pleasing and easy to use website for their members.

Along with a new website they needed a new logo that better suited their overall brand, goals, and mission so with some careful consideration we created what you see now that features a bold name and a few abstract keyboard keys.

SOUTHEASTERN MUSEUMS CONFERENCE

SEMC came to Nicasio with a pre-made Wild Apricot theme that didn't even come close to matching their recent branding efforts nor was the content organized in such a way to allow their visitors and members easy access to all SEMC has to offer.

Nicasio designed and developed a custom Wild Apricot theme to fit their every need and turned their website into a more useful resource. SEMC has a lot of information, so keeping the website clean and easy to follow was a must.

WORLD TRADE CENTER – SAN DIEGO

The World Trade Center San Diego approached us about building their website on the Wild Apricot platform. They loved the member management component of Wild Apricot, but needed a fair amount of custom Javascript and Flash integration to achieve all of their goals.

We were able to meet all existing functionality of their old site, add some new functionality and allow them to use the great member management capabilities of Wild Apricot with this custom build.
